Finest Indian
TONIC WATER

In 1827 the legendary John Ross set out on foot from Port Natal to Delagoa Bay to obtain medicines and other vital supplies for the stranded survivors of 'The Mary'. Although not officially recorded, two very special companions provided additional eyes and ears against the lurking dangers. Introducing Barker, the plucky fox terrier who understood the law of the jungle all too well, and the parrot Quin, a little wacky yet as wise and as true as the sky.
